

I was born in Grand Rapids, Michigan and lived in the Grand Rapids suburbs my entire childhood. I have wanted to be an architect since I knew how to pronounce the word. Interests and excitement with legos and building toys as well as puzzles helped to prepare me for being an architect and were a huge part of my childhood. I also play board games and strategy games in my free time.

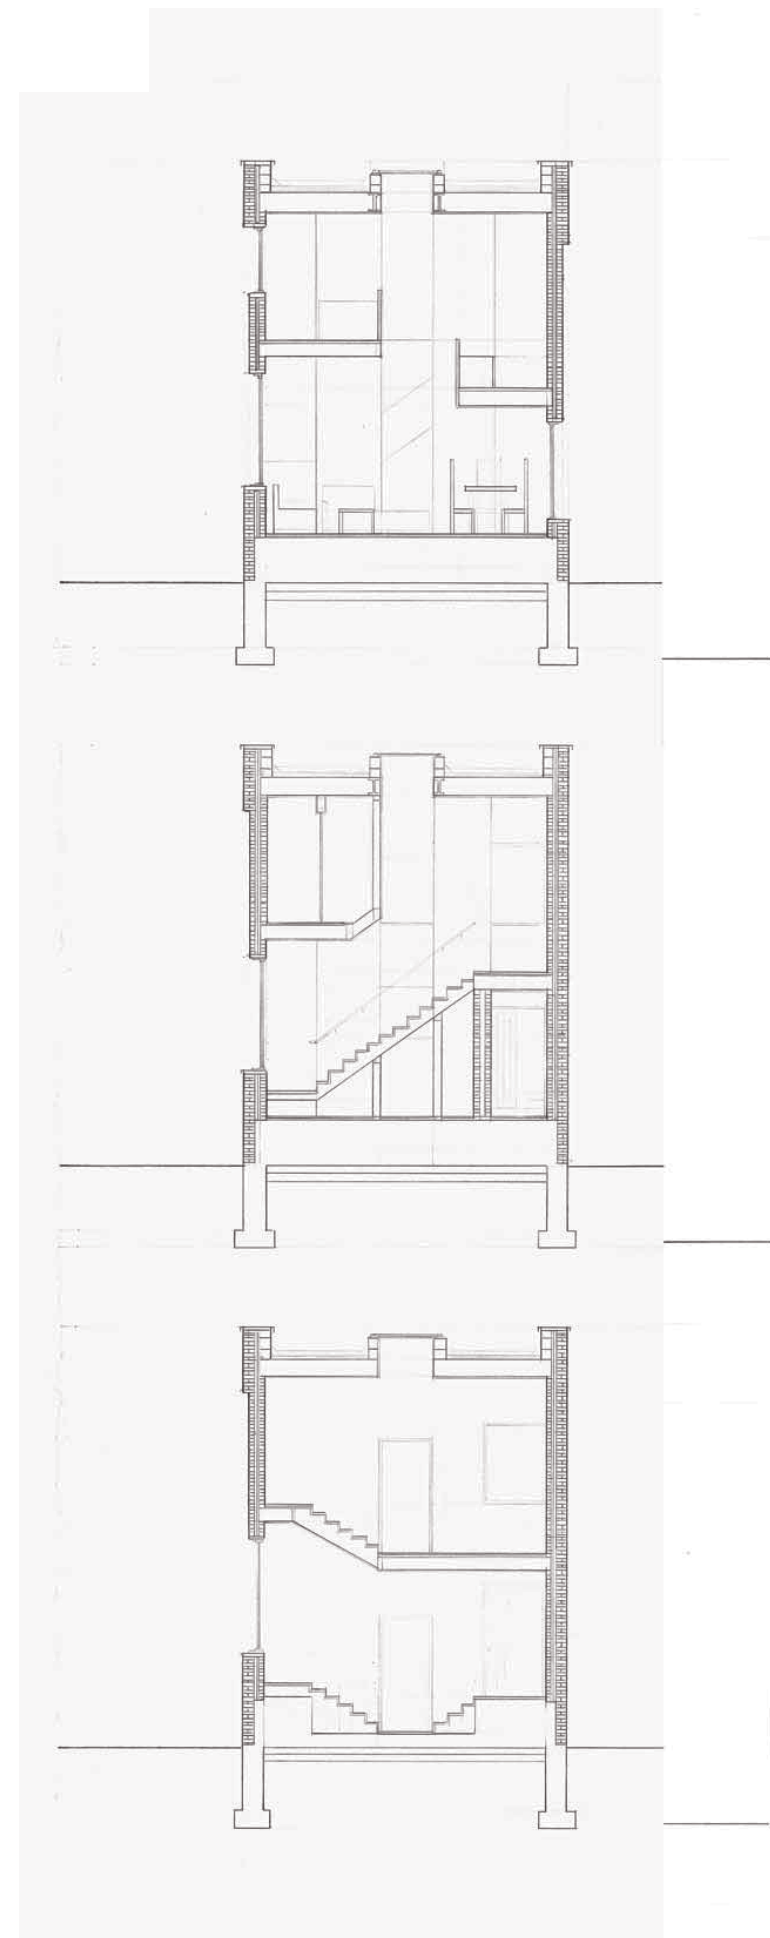

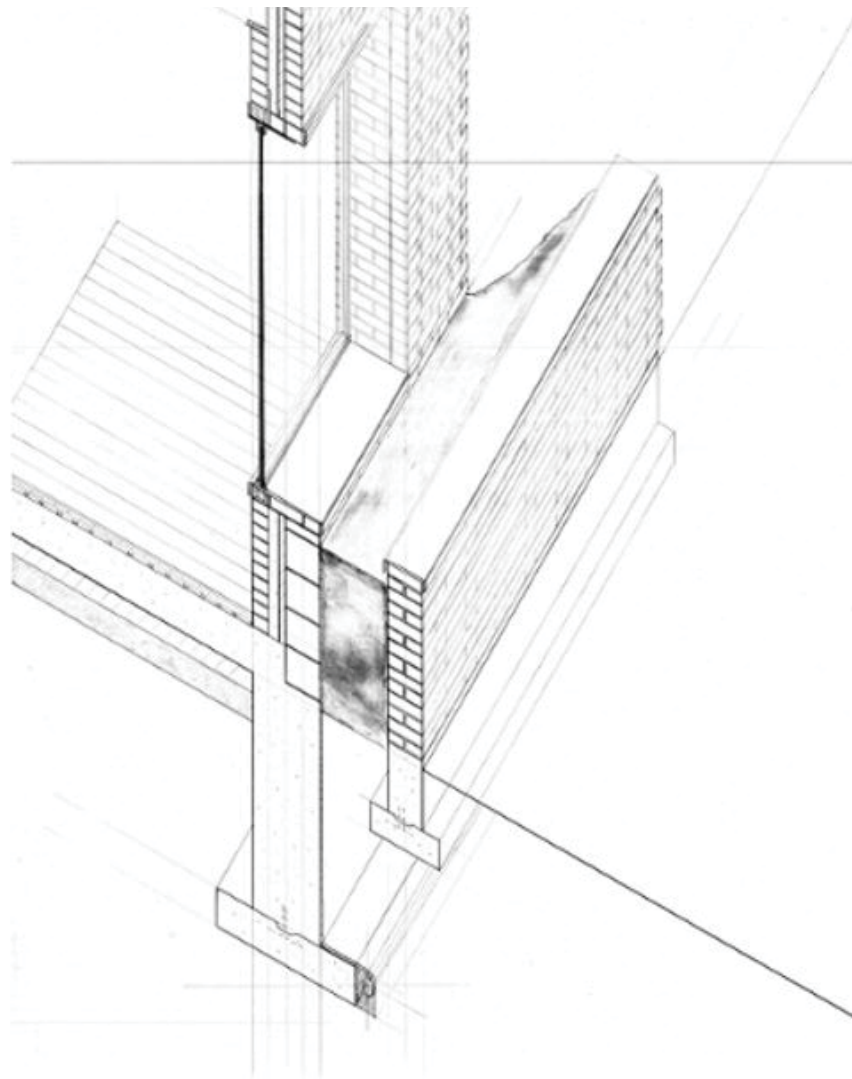

My family has always been an important part of my life and still is as I go to college. My immediate family consists of my parents and a brother, and a dog and cat. We are all rabid game players, border on fanatical about our swimming pool, and always have music playing or a movie on.

Travel has always been an important part of my life and we usually take a large vacation each summer. I have been 29 states, 6 Canadian Provinces and 12 countries. Our trips vary from year to year. We have done mainly nature trips and mainly urban trips.

Besides listening to music frequently I also play a number of instruments. I have played piano since I was 7, and throughout middle and high school played a variety of percussion instruments.
